GRIZZLY FEEDER

**MINING – CONSTRUCTION AGGREGATES – RECYCLING INDUSTRY**

Feeder for primary crushers, robust and strong like a bear

**COMEC** 

[www.comec.it](http://www.comec.it)

## TASK

Grizzly feeders are used for the feeding and load relieving of primary crushers.

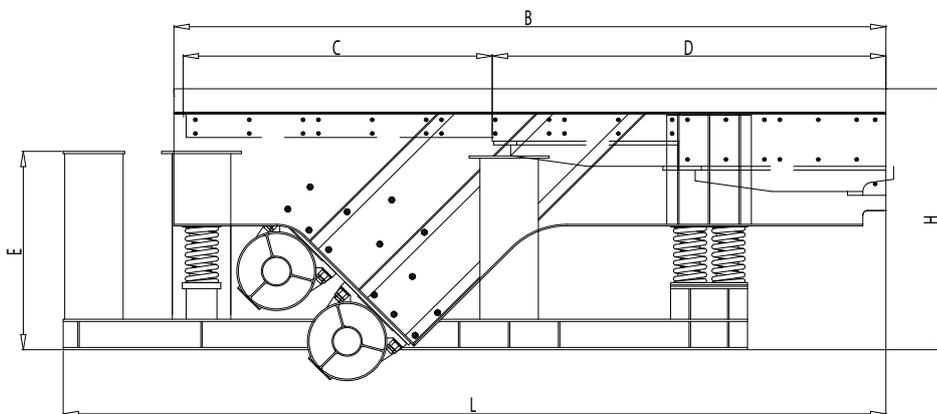

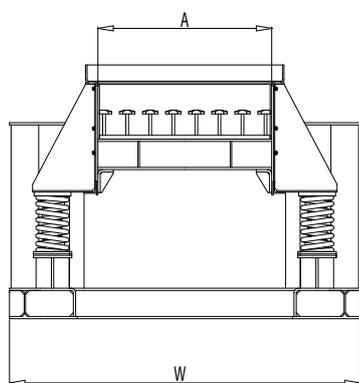

## SOLUTION

The feeding speed of the material can be perfectly adapted to the requirements of each individual customer due to the adjustable counterweights of the Grizzly feeder. Optional frequency converters allow performance adjustment during operation.

## BENEFIT

Due to reliable pre-screening, COMEC Grizzly feeders ensure considerably higher crusher performance, even for coarse grain sizes. Their robust design withstands also in heavy-duty applications. A long service life and easy maintenance make for a highly economical concept.
